

Video Game Contract

I will play my video games for a period of time that my parents and I have discussed and agreed upon.

Weeknights _____

Weekends _____

I will get a warning when I have 10 minutes left to play my games. In that time I will finish or save my game.

I will not argue with mum or dad when my time is up. If I do, I will lose my game time the following day

Before I play online and chat to any other players, I will always discuss this with my parents first

If I am allowed to play with other players online, then I will not give out any private information, including my real name, passwords, date of birth, address, phone number, school or the personal information of family and friends

If something that someone says or does makes me feel uncomfortable during a game, I will stop playing with that person, block them and tell my parents

If I do not abide by these rules then mum or dad have the option to take away the games for a period of time specified by them
